Declaration to RoHS

Date

Confirmation of Directives 2002/95/EG, 2011/65/EU and 2015/863/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS)

Dear sirs and madames,

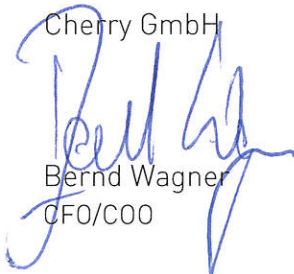

Directive 2002/95/EC of 27 January 2003 (RoHS) has banned lead, cadmium, chromium (VI), mercury, polybrominated biphenyls and polybrominated diphenyl ethers from being placed on the market for new electrical and electronic equipment since 1 July 2006. Directive 2011/65/EU of 8 June 2011 recasts o.g. Directive. From 22.07.2019 the directive 2015/863/EU will apply.

To the best of our knowledge, our products do not contain any substances in concentrations or applications whose marketing in products is prohibited under the current requirements of Directive 2002/95/EC (RoHS) or 2011/65/EU or which are prohibited from 22.07.2019.

For further questions please contact your known contact person at Cherry GmbH and our quality management team.

Best regards,

Cherry GmbH

Bernd Wagner
