Confirmation according to Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and restriction of Chemicals (REACH)

Dear Sirs and Madames,

With this letter we confirm that all products from CHERRY Europe GmbH fulfill the basic requirements of Regulation (EC) Nr. 1907/2006 (REACH-VO; Registration, Evaluation, Authorisation and Restriction of Chemicals regulation).

In particular, we strive to avoid the Substances of Very High Concern (SVHC) listed in Annex XIV, within the meaning of Article 57 of the REACH regulation, in our products. We operate on the basis of information provided to us by our suppliers' information, which also confirms the majority of our products and their packaging.
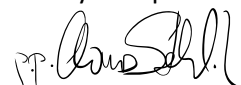

Since January 5, 2021, we are obliged to submit information to ECHA for products that we make available on the EU market and that contain substances of very high concern (SVHCs) from the candidate list in a concentration of more than 0.1% by weight (w/w). We fulfill this obligation by notifying affected products in the SCIP database with the necessary information.

The SCIP notification numbers are published on www.echa.europa.eu/de/scip-database.

The substances contained in our products are regularly compared with the currently valid candidate list (**SVHC 251 Substances**) of ECHA (http://echa.europa.eu/de/candidate-list-table) and the list of substances subject to authorization (Annex XIV) of the REACH regulation. With this declaration of conformity, we also confirm that the substances in our products comply with the requirement of Annex XVII of the Reach regulation.

Best regards,

Cherry Europe GmbH

Claus Stehlik
