### Just fast – RGB gaming mouse for sportive gaming

Play and work sportive with the CHERRY MC 3.1 wired RGB gaming mouse. Fast and precise because of powerful, high resolution Pixart Sensor with adjustable 8000 DPI, full speed USB 2.0 and excellent processing performance. Thanks to the low lift of distance and handy tank track mouse wheel design you have got maximum precision and grip even in hectic situations. The 6 free programmable keys and the symmetrical design makes it the perfect mouse for your game!

### Key benefits

- Fast and precise thanks to the powerful, high-resolution optical Pixart sensor with 8,000 DPI – adjustable using the software or a DPI switch on the bottom (depending on version)
- USB 2.0 full speed interface
- Master IC, excellent processing performance
- CHERRY key for instant access to the CHERRY utility software to customize mouse settings
- 6 Free programmable buttons and illumination modes on internal memory
- Low lift off distance
- Complete color spectrum – can be illuminated in 16.8 million colors (RGB) with many different illumination effects
- With windows driver software, complete configuration of the device
- freely programmable profile settings for dpi resolution can be set in the software. Can be changed with the dpi switches, displayed via white status lights.

- High-tech mouse wheel with tank track design (patent pending) for maximum precision and grip even in hectic situations
- Large glide pads
